

My Children, My Angels

Dr. John

They trying to make excuses but they
Just wanna be bad
For y'all there's a friend,
You ... in no matter, we gonna sip
You know I love you out more than anyone else
Tell me about your desires right now
Don't trip on this wire, I'll show you how
My baby wish I never, made you loose
My children, my angels, talking to you

When there's too many, billions ain't ...up
Don't take the easy road, there's no shortcut
...game, ... what we can for ourselves
Don't put nothing down, but not loving everybody else
Tell me about your desires right now
Don't trip on this wire, I'll show you how
My baby wish I never, made you loose
My children, my angels, talking to you
Tell me about your desires right now
Don't trip on this wire, I'll show you how
My baby wish I never, made you loose
My children, my angels, talking to you.
