

# Fibonacci Sequence

Dr. Steel

Von Neumann probe programmed to multiply  
Clickin' and tickin' with the equation of phi  
Striving and climbing and bribing and lying  
For science, fudge the numbers so that everything fits

Shakin and bakin and takin' and takin' and takin'  
Takin' everything, everything, gimme gimme everything  
Oh no I see the end of the road  
Will we explode before the ice age hits?

I'll shut up cause I don't want to know  
Living with a band-aid on my brain
