

Glutton

Dr. Steel

You need something
I will give it to you
Plant the seed inside of me
Growing stronger, feeding all of you

I am the way
So step into my light
I give you what you want
Desire you just can't hide

That's all that matters
Nothing else
So help me help you
Help yourself

Give to me and I'll give back
Tenfold. Tenfold

I'm everything you need
Your happiness depends on me
I'm everything you want to be

You need something
I will give it to you
Power. Money
Power. Money
Just give it to me

Trust me
I'm the here and now
Bow down before the cash cow
Embracing the world on it's knees
All shall give it to me

Give it to me, give it to me (x8)

Just Give it to me, give it to me

Give it to me, give it to me (x8)
