Forever My Queen

Draconian

I run away with myself I think I ran a little too far Your love is more than a tease And I'm gonna give it all of my heart The situation is all wrapped up And no more needs to be said, oh no You live in my world gotta heed me And I know that you can 'cause you need me There ain't nothin' gonna stop us now We're willing and we both know how And baby, you're gonna be my queen 'cause the king always knows what he means Well, alright The future looks only a sea Of the troubled times ahead for you and me
