

Sensuality

Drafi Deutscher

I see your eyes and I feel a lot of sensuality

Your deep blue eyes give me such a kind of filling ecstasy.
So I lay me down on a blanket made of purple phantasy

You've touched me by your heart
you did it from the start

And all because of sensuality.

How dreary was my life before your time !
A time of dissipation
I lived apart from life's reality.
But now you're here
I feel the good vibration

It's more than physical on top of sensuality.

I
I can see
every move you make is sensuality

Why is it me you are giving all your love and sympathy?
Time
all the time
I will be with you until eternity

I feel your energy just deep inside of me
your energy of sensuality.
