

## Carousel

Dragon

We went to a carnival  
And we took a ride on a carousel  
You went up and I went down  
And the world went spinning round

Those endless summer days  
They seem so far away  
It seems so long ago  
Since you came out to play

We went to a carnival  
And we took a ride on a carousel  
You went up and I went down  
And the world went spinning round

Now the playground's empty  
The crowds have gone away  
The gates are locked up tight  
And rain is here to stay

We went to a carnival  
And we took a ride on a carousel  
You went up and I went down  
And the world went spinning round

Now just the other day  
I thought I heard the music play  
And now my life has changed  
The carnivals here to stay
