

# Big Sunglasses

Dragonette

I never got that particular feeling  
I'm doing better now than how I've been  
Then again I never really ever get anything right

I've got a scab that I can't stop picking  
Things that I thought I'd forgotten  
Things that I thought got better over night  
So what's shaking, a complication

I thought by now I'd be 5'11"  
I'd be hanging out with the top banana  
Executive access to upper classes  
Run and get me some of them big sunglasses

Better gather up what I left for dead  
All the pieces needed in a level head  
All the information that I've taken down all on my own

So if you think you saw me getting by  
I was only lost in another life  
And now I'm racing back to where I came from, I got  
nothing to show  
What's shaking, a complication

I thought by now I'd be 5'11"  
I'd be hanging out with the top banana  
Executive access to upper classes  
Run and get me some of them big sunglasses

I thought by now  
I'd be 5'11"  
I'd be hanging out  
with the top banana  
Executive access to upper classes  
Run and get me some of them big sunglasses

I've got a little left, I've got a little left in me  
I'm not finished yet, I've got a little left in me

I've got a scab that I can't stop picking  
Things that I thought I'd forgotten  
And now I'm racing back to where I came from, I got  
nothing to show  
What shaking, a complication

I thought by now I'd be 5'11"  
I'd be hanging out with the top banana  
Executive access to upper classes  
Run and get me some of them big sunglasses

I thought by now  
I'd be 5'11"  
I'd be hanging out  
with the top banana  
Executive access to upper classes  
Run and get me some of them big sunglasses
