

# Love Can't Touch Me Now

Dragonette

I've got these big heavy storms and I've been piling them up  
In a circle round my heart, in a circle round my heart  
I will be happy alone, I swear I said it out loud  
With the circle round my heart, with the circle round my heart

I'm like a statue now, I'm not afraid  
'Cause I don't feel a thing, and I can't pray

Your love can't touch me now  
Your love can't touch me  
Your love can't touch me now  
Your love can't touch me

Was there nothing to your love? Was it never enough?  
You walk in circles round my heart, walk in circles round my heart  
Well I keep gathering storms to build a brighter top  
So you can never get inside, you walk in circles round my heart

So try to hurt me now, I'm not afraid  
'Cause I am made of things that you can't break

Your love can't touch me now  
Your love can't touch me  
Your love can't touch me now  
Your love can't touch me

Your love can't touch me now  
Your love can't touch me now  
No, no, can't touch me now  
No, no, no, no  
Can't touch me now  
Can't touch me now

Hey, just try to hurt me now, I'm not afraid  
'Cause I am made of things that you can't break  
Your love can't touch me now  
Your love can't touch me  
Your love can't touch me now  
Your love can't touch me

Your love can't touch me now  
Your love can't touch me now  
Your love can't touch me now  
Your love can't touch me now

I've got these big heavy storms and I've been piling them up  
In a circle round my heart, in a circle round my heart  
In a circle round my heart, in a circle round my  
In a circle round my heart, in a circle round my
