

# Pick Up the Phone

Dragonette

Come on Cherry, Cherry  
Your still very young  
And we only just started having fun  
I'm picking through and I choose you, you're so cool  
No need to save yourself for someone else to come

So we went completely wild  
We kicked over a city street light  
And Saint Thomas was vandalized  
And I'm sorry but I'm not surpri-i-i-i-ised

Pick up the phone  
Pick up the phone  
Congratulations I'm having visions of us  
Breaking everything on our way outta town  
Were going places you've never dreamed of  
Whoa oh whoa oh oh (4x)

Oh Cherry, Cherry  
Ill read your fortune  
It says your too serious and such  
But I learned one thing Cherry  
You should understand  
That nothing really matters very much

So we went completely wild  
We were married in the Vegas style  
And our families were scandalized  
Now I'm sorry but I'm not surpri-i-i-i-ised

Pick up the phone  
Pick up the phone  
Congratulations I'm having visions of us  
Breaking everything on our way outta town  
Were going places you've never dreamed of  
Whoa oh whoa oh oh (4x)

Yeah we started the fire, it's a good joke  
Pleated it down til it was up in smoke  
So tired of living round it  
Let the fighters drowned it  
And well go down in the books  
Whoa oh

Yeah we started the fire  
And its burnin up (Whoa oh)  
Everywhere around us take a photograph  
But if they ever found us  
They'd have us surrounded so pick up  
You know you gotta pick it up  
Whoa oh oh

Pick it up (Whoa oh oh)  
Cherry pick it up (Whoa oh oh)  
Pick it up oh ooh

Pick up the phone, pick up the phone

Congratulations I'm having visions of us  
Breaking everything on our way outta town  
Were going places you've never dreamed of  
Whoa oh whoa oh oh (4x)
