

# Right Woman

Dragonette

Is the feeling taking over, hit you like a freight train?  
And get your tip toes tappin' out the song they're playing?  
Have you the heart I'm the one to make your motor run?  
You've got the right woman  
The right woman

Can you not wait just to be taken with the perfect dame?  
To get your hands on her and never take them off again?  
Don't bother please, call my papa for permission  
Cause I'm the right woman  
The right woman

Oh baby,  
Don't you worry this tramp's a lady and  
Gentleman come in every kind  
So come and get me dear  
Cause i can't guarantee it  
You'll be the right guy and next time you'll want the right woman  
The right woman  
The right woman  
The right woman

Follow that impulse to your basement of behavior  
Whether you're looking for corruption or a savior  
Come straight to words what keeps boys playing till they've won  
Come get the right woman  
The right woman

Cause in the end a man knows what the world is built upon  
A clash of war, a touch of love, the rest is just for fun  
And yes of course a reward for the good you've done  
You get the right woman

Oh baby,  
Don't you worry this tramp's a lady and  
Gentleman come in every kind  
So come and get me dear  
Cause i can't guarantee it  
You'll be the right guy and next time you'll want the right woman  
The right woman  
The right woman

Come on take a chance  
Come on take this dance  
Get a closer glance of this specimen  
Show me that you can, show me everything  
Show me you're the right man, the right man

Come on take a chance

Come on take this dance  
Get a closer glance of this specimen  
Show me that you can, show me everything  
Show me you're the right man, the right man

Hey baby,  
Don't you worry this tramp's a lady and  
Gentleman come in every kind  
So come and get me dear  
Cause i can't guarantee it  
You'll be the right guy the next time you'll want the  
right woman  
You want the right woman  
You want the right woman
