

# Riot

Dragonette

That's right, lookin' like  
You don't give a huh tonight  
You're not shutting up tonight  
La-la-la-la-la-la-la, come on

I wanna do good,  
But the good's all done  
Come on another kind of mission  
Running out of fun  
Wanna go get some  
Get a like for the living

Feel that shudder in the conscience  
Right when I bump into a rising sun  
That's higher than then I want now  
I pull it back down and keep it going

So I dance like I'm starting a riot  
I got the fuse already ignited  
It's too late now for us to fight it  
Oh no, I think I might have started a riot  
Riot, oh no

I don't make the rules but I break them up  
I'm just a lover lookin' dangerous  
Roll over the cuffs, and your collar up  
And I'm ready now to get into it

Head down, underneath the blackout  
Blinding lights and the electric sound  
Of something saying let's go  
Closer to the middle  
And they see me coming

Cuz I dance like I'm starting a riot  
I got the fuse already ignited  
It's too late now for us to fight it  
Oh no, I think I might have started a riot  
Riot, oh no  
Oh no  
I think I might have started a riot  
Oh no,  
I think I might have started a riot  
Riot oh no

Alright, lookin' like,  
We don't give a huh tonight  
I'm not shuttin' up tonight  
La la la la la la come on  
And gun gun, baby gun  
Louder or I'm moving on  
Everything now all at once  
Hit me in the bullet punch

That's right, lookin' like,  
We don't give a huh tonight  
I'm not shuttin' up tonight

La la la la la la come on  
And gun gun, baby gun  
Louder or I'm moving on  
Everything now all at once  
Hit me with that punch

Cuz I dance like I'm starting a riot  
I got the fuse already ignited  
It's too late now for us to fight it  
Oh no, I think I might have started a riot  
Riot, oh no  
Oh no  
I think I might have started a riot  
Oh no,  
I think I might have started a riot  
Riot, oh no
