

## Black Fire

DragonForce

We come from...  
Over the dark horizon sky  
With twisted tales of sacrifice  
To imagine or believe all the glory of the free

Hunting all day an endless cry  
The things I've seen I can't deny  
Sinners, saints all mixed in one  
The dawn of time has begun

Why can't you see what they're doing to me?  
Is it fair that I'm dying in vain...?

Once in a land of sacrifice  
Now only valleys of demise  
Shadows of a pale blue moonlight,  
Ride the waves of entity

Why can't you see what they're doing to thee?  
Is it fair that you all die in vain?

Ride with the steel and the power of the sword  
Stand up and fight now and forever more  
Rise through the night sky with daylight's desire  
To be free there must be black fire

Through the day and through the night  
With dragons heart the warrior strikes  
This is the day that they'll be known as my enemy

Why can't you see what they're doing  
To what we believe in we rise through the pain

Ride with the steel and the power of the sword...

We come from distant lands we travel so far  
Can you see the bleeding scar?  
The prizes of life we fail to win  
Cause we doubt the power within

Why can't you see what they're doing to  
What we believe in we rise through the pain...

Ride with the steel and the power of the sword...
