

Three Hammers

DragonForce

Lost long ago through the ages of time
Once ruled immortal, the guardians of light
Bonded together, they stood side by side
Storm winds brought darkness, the world in decline

Quest for their hammers to reclaim the throne
Three brought together by warriors unknown
United to vanquish all hell from the earth
Conquering glory, the kingdom's rebirth

Raise your swords, sound the final war cry
Stand, fight, fight for your lives
Thousands will die but their deaths not in vain
Now reunited our world may be free once again

Three hammers high, in the burning red sky
Forged in the fire, protectors of mankind
Three hammers high, for the world we unite
Fight for our lives, as we hold up the three hammers high

Long have we travelled through forgotten lands
From coldest valleys to burning red sands
Restless we ride through the depths of all hell
Triumph and agony, death will prevail

Raise your swords, sound the final war cry
Stand, fight, fight for your lives
Strike back with vengeance, 'til death we defend
Until the day that the dragons will rise once again

Three hammers high, in the burning red sky
Forged in the fire, protectors of mankind
Three hammers high, for the world we unite
Fight for our lives, as we hold up the three hammers high

Strike down the unbelievers
March on for justice we now stand
Once more the path for glory
Take back the power in our hands

Long years of terror and the long years of pain
Still marching onwards 'til victory's ours once again
Victory's ours once again

Three hammers high, in the burning red sky
Forged in the fire, protectors of mankind
Three hammers high, for the world we unite
Fight for our lives, as we hold up the three hammers high
