

King without a Crown

Dragonsfire

Fallen hero listen, I'm asking what you've done
Banished from your homeland and victim of the fraud
You're not gonna give up, you know your time will come
Forever on the run - betrayed
The king without a crown

High on his white winged horse he flies so high
Demanding own divinity from the king of the sky
The wrath of the thunderer is sharp as a knife
Free falling back to earth for a mortal life

King without a crown
King without a crown
King without a crown
King without a crown

A quest is made for him, he won't return
Kill the beast
The fire-breathing creature cannot be slain
Kill the beast
The shake, the goat the lion will take him out
Kill the beast
But he has been victorious and demands
The king without a crown

High on his white winged horse he flies so high
Demanding own divinity from the king of the sky
The wrath of the thunderer is sharp as a knife
Free falling back to earth for a mortal life

King without a crown
King without a crown
King without a crown
King without a crown

Another challenge's made, to let him die
No remorse
But with the flying horse, he will survive
No remorse
Until the day that he rises too high, too high in the sky
No remorse
There's no way to the gods for you, not for you
The king without a crown

King without a crown call for divinity

High on his white winged horse he flies so high
Demanding own divinity from the king of the sky
The wrath of the thunderer is sharp as a knife
Free falling back to earth for a mortal life
For a mortal life

King without a crown
King without a crown
King without a crown
King without a crown
