

My Mashed Insane Brain...

Dragonsfire

My mashed insane brain starts a comeback party
It gets: Metal, a night show and all that it wants - hey
You only get this life, your plans may always change

Like an evening that's long gone, an antecedent night
Have a party with our stuff, feeling great feeling right!
I don't mind how much you took, oh no
We carry on, carry on, carry on, with the show

Food and love for free, what else do you see?
Love that life, you get no time for regrets
Let's go on and on, don't walk that way alone
We're all on your side so we're unified

Don't care about religion or what you stand for
Don't mind 'cause it sucks so let love rule the ball!
Feel the sound, the beat -metal service

Godless sinners know
Welcome to the show
Agony will wait for thee
Godless sinners know
Welcome to the show
Agony will wait for thee

Agony

Food and love for free, what else do you see?
Love that life, you get no time for regrets
Let's go on and on, don't walk that way alone
We're all on your side so we're unified

We're not here forever but our time is now!
So rough up the club and scream out loud
Say fuck you! This is what we do

All vanishes to nothing cut the long story short
Maturity is overrated, do what you want!
Say fuck you! This is what I do!

Godless sinners know
Welcome to the show
Agony will wait for thee
Godless sinners know
Welcome to the show
Agony will wait for thee

Food and love for free, what else do you see?
Love that life, you get no time for regrets
Let's go on and on, don't walk that way alone
We're all on your side so we're unified

Bite the hand that feeds
Dance to your own beat
Love that life, you get
No time for regrets
Let's go! On and on

Don't walk that way alone
Were all on your side
So we're unified
