

Oath of Allegiance

Dragonsfire

Forged by a hammer,
We are made of steel.
The hammer of justice,
To no man we kneel.
The breath of the dragon,
In a fiery realm.
Has brought us a new life,
As we swore allegiance to him

And we fight until death is our saviour
Ride with our rage to the hill
Defending our land, every woman and man
Will sing this song 'til the end
Fight until death is our saviour
Ride with our rage to the hill
Defending our land, every woman and man
Will sing this song 'til the end

We show our true colours,
With pride and we know,
This is the time,
To strike with a blow.
Our enemies march in,
To fight and to die.
We'll never surrender,
With the dragon by our side.

And we fight until death is our saviour
Ride with our rage to the hill
Defending our land, every woman and man
Will sing this song 'til the end
Fight until death is our saviour
Ride with our rage to the hill
Defending our land, every woman and man
Will sing this song 'til the end

We are one, we stand strong
With fire in our eyes
We are one, we stand strong
With fire in our eyes

And we fight until death is our saviour
Ride with our rage to the hill
Defending our land, every woman and man
Will sing this song 'til the end
Fight until death is our saviour
Ride with our rage to the hill
Defending our land, every woman and man
Will sing this song 'til the end
