

Savior

Dragonsfire

When your time has come, and all sins are done
You are on your way to purgatory
The angel comes with blackened wings
And black is the life that you chose
Don't fear the end 'cause it can't be denied
Let him take you, take you away

Savior, deep in the night I am calling
Calling for you
Savior, in heaven's a place for us all
Pray for us all, and pray for our souls

You're searching forgiveness, it may be too late
Your soul reminds restless, until you find your fate
You stand on the border between life and death
The dying call your name
All the lost souls on their way to the end dwell till
The dawn of time

Savior, deep in the night I am calling
Calling for you
Savior, in heaven's a place for us all
Pray for us all, and pray for me, too
Save me

I'm cryin', I'm dyin', keep watchin' over me
I'm cryin', I'm dyin', keep watchin' over me
I'm cryin', I'm dyin', keep watchin' over me
I'm cryin', I'm dyin', keep watchin' over me

Watch me, help me, watch me
Dying, can't you see?

Savior, deep in the night I am calling
Calling for you
Savior, in heaven's a place for us all
Pray for us all, pray for us all
