

Shine On

Dragonsfire

Here comes the sun
It shines from our hearts
The holy light
That tears you apart
The light of salvation is shining for us
And we will forever be free
Takes away the pain and dark
And tells me what I shall be

You can't change the way we are - no, no
You can't change the way we are - no, no

Shine on forever and light our path,
Guide us on our way
The light from deep within our hearts,
Will never lead us astray

Time to breathe on
And take the next step
With passion and faith
And burning desire
Find your light and flame it up
And you will forever be free
One thing to make you stronger and tough
And tells you what you shall be

You can't change the way we are - no, no
You can't change the way we are - no, no

Shine on forever and light our path,
Guide us on our way
The light from deep within our hearts,
Will never lead us astray

So please take my hand
And walk with me
Together we shine
Together we're free
Don't care about yesterdays
Or what you'll never be
No one can take you higher
It's all in you and me

You can't change the way we are - no, no
You can't change the way we are - no, no

Shine on forever and light our path,
Guide us on our way
The light from deep within our hearts,
Will never lead us astray

Shine on, shine on, shine on and on...
