

Visions of Fire

Dragonsfire

Listen to us, we give you the power,
A new life and belief
But we're no religion, we're not gonna teach you,
That you'll burn in hell
Mortal we are, but our spirit is not,
Forever lives on in this song
And so do you all belong to our world?
And live on as well

In flames we were born, got visions of fire
Lighting up the world
Melting the rocks and hammer our Metal
The dragon's fire burns

Flames reach high from the underground
Look at what we've done, listen to the sound
Raise your hands and reach out from below
Let your spirit glow, burn for Metal - play it loud

Nothing on earth is able to stop us,
Don't dare to stand in our way
We hold the key to the mystery
Hiding in the dark
We give you something you can believe in
Give you the strength to live on
Salvation is here if you want to have it
Just scream it out loud

In flames we were born, got visions of fire
Lighting up the world
Melting the rocks and hammer our Metal
The dragon's fire burns

Flames reach high from the underground
Look at what we've done, listen to the sound
Raise your hands and reach out from below
Let your spirit glow, burn for Metal - play it loud

In flames we were born, got visions of fire
Lighting up the world
Melting the rocks and hammer our Metal
The dragon's fire burns
Dragon's fire burns

Ohohoh keep on rising
Ohohoh we'll be rising
We've got the strength
We've got the sound
Altogether now
Shout it out loud

In flames we were born, got visions of fire
Lighting up the world
Melting the rocks and hammer our Metal
The dragon's fire burns

Flames reach high from the underground

Look at what we've done, listen to the sound
Raise your hands and reach out from below
Let your spirit glow, burn for Metal - play it loud

Dragon's fire burns
Burn!
