

## The Crawl

### Dreadful Shadows

It takes the pain away  
that could not make you stay  
it's way to broke to fix  
no glue, no bag of tricks

Lay me down, the lie will unfurl  
lay me down to crawl.

Your smile would make me sneeze  
when we were Siamese  
Amazing grace in here  
I'd pay to have you near.

Lay me down, the lie will unfurl  
lay me down to crawl.

Don't go and lose your face  
at some stranger's place  
and don't forget to breathe  
and pay before you leave

Lay me down, the lie will unfurl  
lay me down to crawl.  
Lay me down, the lie will unfurl  
lay me down to crawl.
