

Different Planets

Dreadzone

You don't know
And I forgot to mention
Even though
we had a conversation
You don't see
all my good intention
All this time
We spent on our relation
No -you don't know
In these days
Its all about survival
Finding food
And bettering our rival
Now you say
You want me to move over
You won't lean
On anybodies shoulder
You don't know ,you don't know, you don't know
You say this is your time
Even though, even though ,even though
I'm telling you its mine
Here we are
In this situation
All it takes
Is communication
Now you say
You want me to move over
You won't lean
On anybodies shoulder
