Little Britain

Dreadzone

In this green and pleasant land We have a dream to understand In the mountains of the mind There is a spirit you will find Just like the angel from above Sent to deliver words of love Ancient cross and Zion star Eastern ways and praise to Jah This is our land This is your land This is our inheritance To lead you on a merry dance In the beginning there was light Shining path and journeys bright When the nations pray as one Then will the races all be won In this green and pleasant land We have a dream to understand Open paradises gate Dance on the land and celebrate Say no matter what your colour Your race or your culture This is our inheritance To lead you on a merry dance
