

Bang Your Head

Dream Evil

What do you want, what do you need?
Let me know what you desire
I know what I want, I know my needs
Rolling heads light my fire
I come alive to spinning heads so...
Bang your head. Bang until you drop
Bang your head. Don't you never stop
Bang your head. Give me what I need
Bang your head. I need you to proceed
Bang your head
I'm feeling hot, electrified
I know by metal we're connected
Let's have some fun, let the banging begin
And I don't like to be rejected
I come alive to spinning heads so...
Bang your head. Bang until you drop
Bang your head. Don't you ever stop
Bang your head. Give me what I need
Bang your head. I need you to proceed
Bang your head
Tomorrow it hurts, your neck will be dead
But it's tonight that counts, so fucking bang your head
