

## Blind Evil

## Dream Evil

I took you by surprise and led you through the night  
I knew you never felt that safe  
I turn and whisper to you, you turn away  
I'd never lie to you, my friend  
But you should know this one thing  
This thing may one day save your life  
It's real but you can't touch it  
In every colour of the light  
Blind Evil  
Standing in the darkness  
Waiting in the pouring rain  
Blind Evil  
Want to bring you sadness  
Beat you to eternal pain  
You turn away in anger  
And walked alone  
You said that I could go to hell  
But in the street there's something  
You can't deny  
The path to death is where we meet  
But you should know this one thing  
This thing may one day save your life  
It's real but you can't touch it  
In every colour of the light  
Blind Evil  
Standing in the darkness  
Waiting in the pouring rain  
Blind Evil  
Want to bring you sadness  
Beat you to eternal pain  
(guitar solo)  
But you should know this one thing  
This thing may one day save your life  
It's real but you can't touch it  
In every colour of the light  
Blind Evil  
Standing in the darkness  
Waiting in the pouring rain  
Blind Evil  
Want to bring you sadness  
Beat you to eternal pain  
Blind Evil  
Standing in the darkness  
Waiting in the pouring rain  
Blind Evil  
Want to bring you sadness  
Beat you to eternal pain
