

God damn their poetic rock
You're in for a metal shock
Like a bomb we will blow your mind
We never leave our friends behind
Like a clan we aim for the night
We won't give up without a fight
Together we are strong
We always have the will to go on
Blood brothers in to the bone
A clenched fist hard like a stone
Just like lightning strikes a fire IN THE NIGHT. Metal
is the only way
The devil's sign confirms you're ready for the fight
Built to last and here to stay. It's electric
Be assured that we are back. With power we will lead
the attack
We're stronger than ever before. We're metal in to the
core
Like steel we shine IN THE NIGHT. We spread our wings
for the flight
We'll take this night as it comes. We are the chosen
ones
Are you ready? We will win this war
Just like lightning strikes a fire IN THE NIGHT. Metal
is the only way
The devil's sign confirms you're ready for the fight
Built to last and here to stay. It's electric
The tension, electric. The power, electric.
Together, electric, the night is electric.
The crowd is electric, metal electric
Just like lightning strikes a fire IN THE NIGHT. Metal
is the only way
The devil's sign confirms you're ready for the fight
Built to last and here to stay. It's electric
We're the lightning, We're the fire IN THE NIGHT. Metal
is our only way
The devil's sign confirms we're burning for the fight
Built to last and here to stay. It's electric
