

## Higher on Fire

Dream Evil

Even if it's serious  
You got to have some fun  
This is something we believe in  
From the moment we begun  
Heavy metal thunder  
Let the power take command  
Got to keep it simple  
Make people understand  
Some might say that we all are a fake  
Just rednecks who pretend  
But we don't really care  
We're going higher on fire  
With fire we force our way  
We got a higher desire for life  
We just ignore this indiscretion  
Keep our heads up high  
Staying faithful to our mission  
To playing metal till we die  
So with metal chains and leather  
We pree in lust  
This music lasts forever  
In metal we all trust  
Some might say that we all are a fake  
Just rednecks who pretend  
But we don't really care  
We're going higher on fire  
With fire we force our way  
We got a higher desire for life
