

Immortal

Dream Evil

It's time to surrender, you know we feel no fear
Inferior contender, your men will not survive
You better tell your mortals, to step aside
Or be the last man standing to watch them die

Immortal, forever we stand in line

Battlefield burning, arrows shadow the sky
I feel the yearning, longing to see their skin fry
Too late to beg for mercy, to step aside
This is your termination just say goodbye

Immortal, forever, we just can't die

I am immortal, I cannot die, you better run and hide
We are immortal, we rule the slaughter, and side by side we ride

Immortal, forever, we stand in line
Immortal, forever, we just can't die
Immortal, forever, we stand in line

I am immortal, I cannot die, you better run and hide
We are immortal, we rule the slaughter, and side by side we ride
We are immortal, we show no fear, you better step aside
We are immortal, we rule the slaughter, and side by side we ride
