

# Immortal

Dream Evil

It's time to surrender, you know we feel no fear  
Inferior contender, your men will not survive  
You better tell your mortals, to step aside  
Or be the last man standing to watch them die

Immortal, forever we stand in line

Battlefield burning, arrows shadow the sky  
I feel the yearning, longing to see their skin fry  
Too late to beg for mercy, to step aside  
This is your termination just say goodbye

Immortal, forever, we just can't die

I am immortal, I cannot die, you better run and hide  
We are immortal, we rule the slaughter, and side by side we ride

Immortal, forever, we stand in line  
Immortal, forever, we just can't die  
Immortal, forever, we stand in line

I am immortal, I cannot die, you better run and hide  
We are immortal, we rule the slaughter, and side by side we ride  
We are immortal, we show no fear, you better step aside  
We are immortal, we rule the slaughter, and side by side we ride
