We stand here in silence Ten thousand with weapons in hand Brought out of violence For freedom I gathered these men We're riding on the wings of Odin In glory we believe A kingdom at war Forever stand united A kingdom at war Together we gain ground Fight in the war Steel strikes like lighting Bodies are twisted in pain Although it's frightening Our losses should not be in vain We're riding on the wings of Odin In glory we believe A kingdom at war Forever stand united A kingdom at war Together we gain ground Just like a shadow we sneak up behind Don't take no prisoners, it's killing time We're riding on the wings of Odin In glory we believe A kingdom at war Forever stand united A kingdom at war Together we gain ground Fight in the war
