Satan, I promised you my soul Master, I gave you full control Now I changed my mind I want to be free Judas, he had something to sell Still you did send him straight to hell You just made him burn Nothing in return Why don't you listen to me? Show me the door, give me the key Unchain my soul Please set me free (Let me out) Out of this prison (Scream and shout) Somebody listen to what I have to say To free my mind (Let me out) I have a vision (Scream and shout) Impossible mission To clear my soul, let go and press rewind Darkness and hate took over me I live my life in misery Sold my soul too cheap Please give it back Find it before it is too late Give me the key to my escape I am not the one, please let me go Once more I'm being blessed My horrifying days has passed Now I am free to live my life (Let me out) Out of this prison (Scream and shout) Somebody listen to what I have to say To free my mind (Let me out) I have a vision (Scream and shout) Impossible mission To clear my soul, let go and press rewind To clear my soul, let go and press rewind Now I'm back to where I started Fresh as one can be I am just as broken hearted As the man I used to be Do I really want this weakness? Do I really want this pain? Want to live my life in success So I sold my soul again (Let me out) Out of this prison (Scream and shout) Somebody listen to what I have to say To free my mind (Let me out)

I have a vision
(Scream and shout)
