

Let's Make Rock

Dream Evil

Can you feel it? It's in the air tonight
Can you touch it? Makes you feel alright
Feel the power, let me see your hands
Please come closer even closer
Now let's break down the fence
Let's go crazy we won't stop until we make you go wild
Don't be lazy altogether now stand up and shout
Let's make rock
What are you waiting for
Let's make rock
I gonna give you more
I can feel it! It's everywhere tonight
I can touch it! Such a great delight
I'm on fire! Feel the temperature rise
Take me higher so much higher
See the burning flames in your eyes
Let's go crazy we won't stop until we make you go wild
Don't be lazy altogether now stand up and shout
Let's make rock
What are you waiting for'
Let's make rock
We gonna give you more
Harder than heavy in the night
We gonna rock you till the morning light
Let's make rock
What are you waiting for'
Let's make rock
We gonna give you more
Let's make rock
What are you waiting for'
Let's make rock
We gonna give you more
