Live a Lie

Dream Evil

Nothing is sacred – Not even what you tell me
It doesn't matter what you say
It's only hatred – Hatred that feeds the fire
The flames gonna take away the pain
It takes the reason from your mind
It makes you strong but then you're blind
Leave it or die
Gotta listen to your heart
Or live a lie
Leave it or die
Find a way to stay apart
Or live a lie
Feelings in danger – You don't care who is hurting
As long as you think you're in control
No thoughts for the future – You stay on the course you're chos
en
Nothing can help to save your soul
It takes the reason from your mind
It makes you strong but then you're blind
Leave it or die
Gotta listen to your heart
Or live a lie
Leave it or die
Find a way to stay apart
Or live a lie
What have I done – Am I insane
Now when I'm lost – Who is to blame
I can't find peace of mind
My feelings are gone – I'm left all alone
I wish I could turn back time
It takes the reason from your mind
It makes you strong but then you're blind
Leave it or die
Gotta listen to your heart
Or live a lie
Leave it or die
Find a way to stay apart
Or live a lie
