In the dead of the night As the candles die out I'm watching her going to sleep She has to be strong She's left all along I have to go out in the fields You're all I ever wanted And I can't go on without you But some things come between us, My love Words cannot express The sorrow I feel I wish I could turn back time To where we began Where love had no end And you and me were as one You're all I ever wanted There's just pain without you Hear the angels cry in heaven, my love I'm scared I might be losing you and I don't know which way to turn I fell I might be losing you I can't live my life without your love The sound of your breath The smell of your hair The touch of your golden skin They keep me awake Through out every night To think of what might have been You're all I ever wanted You're my life and my lust I could never mean to hurt you, my love I have fought so many battles I have suffered so much pain Without you to love and hold me All of this would be in vain
