

Society to Anxiety

Dream On, Dreamer

Well I've been running from this story for years,
The ghost keeps chasing me,
The grounds keep breaking me,
I'm not really lost, I just haven't found it yet
There is no place on earth where no misery exists,

Let me just say, let me escape
I know I can
(I know I can) I've been alone, I've been so scared
I know you're there
(I know you're there) They said
Breathe in just a little more They said
Breathe in just a little more They said breathe in just a little more

This has to stop
It can't go on like this
Just get me out of this sinking ship I'm in

Let me just say, let me escape
I know I can
(I know I can) I've been alone, I've been so scared
I know you're there
(I know you're there) It's only pain when it hurts
It's only night when it's black
The only thing you'll love is lost
And the light pulls you back
