Don't Leave Me

Dream Street

My name is rudi oh That's what my family called me Ever since the day when they just walked away Ever since they left me If I could talk to them just one more time This is what I would tell them

Don't leave me in the dark night all alone Don't leave me by myself You're my mother and you are my father Please, please don't leave me

When I realized how much I missed Nobody to tuck me in at night or whisper in my ear "i love you..." If I could talk to them just one more time This is what I would tell them
