

# This Time

Dream Street

Ooh ooh ooh ooh.....

I never thought that I could miss  
The touch of your hand, or just one kiss  
I never meant to say it's over

Girl, I was a fool to hurt you so  
I had it all and didn't know  
But I still believe we can be in love again

This time I'm gonna find a way  
To hold on to the love that I thought we'd lost forever  
This time I'll find the words to say  
To make it better  
Let's stay together this time

I kept my emotions locked inside  
Only to watch love pass me by  
But I've had time to think it over  
My lonely heart has seen the light  
So give me the chance to make it right  
And I pray I'll see the day when you return

This time I'm gonna find a way  
To hold on to the love that I thought we'd lost forever  
This time I'll find the words to say  
To make it better  
Let's stay together this time

Please don't say goodbye (Hurting deep inside)  
We can keep our dream alive if we try (Baby, this time)  
Oh baby this time

This time I'm gonna find a way  
To hold on to the love that I thought we'd lost forever  
This time I'll find the words to say  
To make it better  
Let's stay together this time  
This time I'm gonna find a way (I'm holding on, holding on.....  
Yeah...)  
To hold on to the love that I thought we'd lost forever  
This time I'll find the words to say (Ooh ooh ooh.....)  
To make it better  
Let's stay together this time
