

Changes

Dreamscape

Aren't you afraid at night?
Watch out if you walk alone!
Ominous eyes are scanning you again
You cannot hide
Danger, someone's lurking for you in the dark!
Stranger, expect no help this time!
Be quick, now run for your life

Watch the sky
Cold winds are blowing
Dark clouds above our heads
Watch the sea
Blue water is changing the color into red

Changes
This time I feel hatred, everywhere I go
Don't close your eyes, recall the memories
Learn from the past, make changes!

Drifting through reality
Living in existential fear
Raising hands up for the hail
Being obsessed with false ideals

Changes
This time I feel hatred, everywhere I go
Don't close your eyes, recall the memories
Learn from the past, make changes
