

Cry out loud, the pain you feel it's the  
Only way to make people see that you  
Live and breathe, like humans do  
In their hearts they know it's true

From the darkness into the light  
Find out hope that lies within  
Wipe out those tears for the past years  
Forget what has been

Lost souls, lives unknown  
Long forgotten yet near you and I  
Hear lost souls, they're grieving alone  
While we crave more and more  
To our own selves

Day by day you feel something's near and the  
Shivers run down at your spine, There are  
People you know, people you don't  
But something is right in between

From the daylight into the night  
Drown in and feel the pain  
Wipe out that grin out of your face  
Don't forget what has been
