

# We Are One

Dreamtale

Sun is closing it's eyes on us  
I remember your touch  
Close me into your arms  
Give me hope

Come my darling, with me this night  
Let's fly like birds in the sky  
For the first time you'll be mine  
In this magical night

I embrace you the final time  
As moon paints the night  
In shadows and darkness  
You are my light

Forest whispers your name  
As I kiss your sweet lips  
For the last time you are mine  
In this magical night

[Chorus:]

Dance between the rainbows  
In the fields of love,  
Emotions burning like fires  
In the morning sky,  
In twilight we are one!

Under the silvery light  
I have to let you go  
And you'll fly free  
To the silent night

We are one forever  
Together in our hearts  
The memory of you and I  
Will never fade away
