This is my fate
It won't change
I am hopeless
This is my fate
It won't change
I am hopeless
This is my fate
It won't change
I am hopeless
This is my fate
It won't change
I am hopeless
Where would I be now and where could i grown in who's house
in who's home a different reality
Where could I be now without this fate in my life
What is my purpose here is it to feel right
Where could i be
This is my little life
Not for granted
Our lives are already said
Our lives are already determined
Where would I be now and where could if i grown in who's house
in who's home a different reality
Where could I be now without this fate in my life
What is my purpose here is it to feel right
Where could I be
This is my little life
Not for granted
Our lives are already said
Our lives are already determined
This is my fate
