

## Scissor Lock

dredg

I think I'm awake  
Rolling on my blanket  
I am sinking into the bed  
Light around me  
Beautiful washes of pulsating color  
Buzzing white noise  
It sounds like one hundred bees

I too once thought the radio played  
Let's act like children while we sleep paralyzed  
I too once thought the radio played  
Let's act like children while we sleep paralyzed

Pulsing  
You control it  
Body's asleep  
And your mind is awake

I too once thought the radio played  
Let's act like children while we sleep paralyzed  
I too once thought the radio played  
Let's act like children while we sleep paralyzed

I too once thought the radio played  
Let's act like children while we sleep paralyzed  
I too once thought the radio played  
Let's act like children while we sleep paralyzed
