

The Canyon Behind Her

dredg

Does anybody feel this way
Does anybody feel like I do
Does anybody feel this way
Does anybody feel like I do

I built a wall
It stretched one thousand miles
Set it off
(Massacre)
It's holding up the roof
Breast feed your heart
Set it off

I saw a distant port
With no water to support
Burning the bridge between

Does anybody feel this way
Does anybody feel like I do
Does anybody feel this way
Does anybody feel like I do

Never content nor satisfied
Tensions of self
The massacre changed history
Borderline paranoia
Yelling at their own rights
Set it off

Does anybody feel this way
Does anybody feel like I do
Though half of me is gone
The lonesome heart is there

I cannot find the other half
I cannot find the other half
I cannot find the other half
I cannot find the other half
