

Beautiful

Drew Seeley

You're like
The first rays of sunshine after years of being blind
And you're like
The right song at the right time, to remind me I'm alive
It's like
First place at the big race, when they all said it couldn't be done
And you're like
The moment you realize that you might have found the one

And I can't think of anywhere I'd rather be
Than right here next to you
You turn a skeptic into a believer, girl
With everything you do
You're everything I know
How could life get much more beautiful, beautiful, oh
Than the way I feel with you
With you it all feels so right
You make life so much more beautiful, beautiful, oh

You're like
Something that makes me wanna go brag to all my friends
And you like
The sweet voice of reason on which I always can depend
And you're like
The one, when I'm done and I'm tired, that inspires me to go on
And you're like
My favorite addiction and the reason for this song

And I can't think of anywhere I'd rather be
Than right here next to you
You turn a skeptic into a believer, girl
With everything you do
You're everything I know
How could life get much more beautiful, beautiful, oh
Than the way I feel with you
With you it all feels so right
You make life so much more beautiful, beautiful, oh

I've got to let you know
That you're b-e-a-u-tiful
Girl I'll never let you go
Cause you're b-e-a-u-tiful

You're everything I know
How could life get much more beautiful, beautiful, oh
Than the way I feel with you
With you it all feels so right
You make life so much more beautiful, beautiful, oh

You're everything I know
How could life get much more beautiful, beautiful, oh
Than the way I feel with you
With you it all feels so right
You make life so much more beautiful, beautiful, oh

That's the way
That's the way I feel

So beautiful
So beautiful
One more time bring it back

I've got to let you know
That you're b-e-a-u-tiful
Girl I'll never let you go
Cause you're b-e-a-u-tiful
