Every Now And Then

Drew Seeley

Not like I planned it
But you're gettin' mad at me
In the studio til three
I couldn't stand it
All the snoring when you sleep
I said it wasn't meant to be
I know you felt the same
It wasn't workin' out
I let you walk away
I didn't think about you it's true
Now I miss those things you do

Every now and then
Think about if you had stayed
And every now and then
Wonder if I made a mistake
I wanna say I'm wrong
I wanna say that it's okay
But every now and then
Is every single day

I really tried my best
To forget about it
How you looked in a dress
And how you looked without it
All those annoying test message you sent me
I'm hoping for one every single time my phone rings
I thought you felt the same
When you were walkin' out
Was I just being lame
Too dumb to figure out you would've won
And now look what I've become

Every now and then
Think about if you had stayed
And every now and then
Wonder if I made a mistake
I wanna say I'm wrong
I wanna say that it's okay
But every now and then
Is every single day

And I can't stop thinking bout what we had
And I wonder if you feel as bad
I can't lie, can't you see
I can't fly
Don't wanna be without you
It's me without you
And like a kite with no wind
Every now and then

Every now and then
Think about if you had stayed
And every now and then
Wonder if I made a mistake
I wanna say I'm wrong
I wanna say that it's okay

But every now and then
Is every single day
