Drew Seeley

I Do

I see the world for you and me I hear a perfect harmony Where you are is where I'm gonna be I'm gonna be

Forever could never be enough Together is all I need for us When the rain is pouring down And there's no one else around I'll be your shelter now

And I'll be the one you can run to I'll be the one who's meant to love you now And always til our days are through You know I do You know I do Time to say the words Never been so sure I wanna spend my life with you I do

There's a match for every heart And there's a light for every dark With you I found My counterpart, my counterpart

Forever could never be enough Together is all I need for us When the rain is pouring down And there's no one else around I'll be your shelter now

And I'll be the one you can run to I'll be the one who's meant to love you now And always til our days are through You know I do You know I do Time to say the words Never been so sure I wanna spend my life with you I do

Forever could never be enough Together is all I need for us When the rain is pouring down And there's no one else around I'll be your shelter now

And I'll be the one you can run to I'll be the one who's meant to love you now And always til our days are through You know I do You know I do Time to say the words Never been so sure I wanna spend my life with you
