

# Just That Girl

Drew Seeley

She's that girl, I know it  
She's that girl, I know it

Sometimes it feels  
Like everybody wants something from me  
Don't understand, I can only be one person, that's Joey  
Got game, got fame, got everything in this world I need

But the girl, I don't know her name  
'Cause I've only met her in my dreams  
But I'm gonna find her 'cause she's

Just that girl, the one that's dancin' through my mind  
Just that girl, the girl that I've been tryna find  
Just that girl, her style is crazy, she's a dime  
And it's almost like I can see her, she's just that girl

Something happens when you groove  
Earth beneath you starts to move  
It's so bad, I'm lookin' at you  
'Cause you are that girl

Crazy how you work that frame  
You and me, we could change the game  
What's your secret? What's your name?  
That girl

To me you're a star  
When you move you're off the charts  
You've already won my heart  
That girl

To me you're a star  
You don't have to play the part  
You can be just who you are  
'Cause you're just that girl

The one that's dancin' through my mind  
Just that girl, the girl that I've been tryna find  
Just that girl, her style is crazy, she's a dime  
And it's almost like I can see her, she's just that girl

Yes she know she's just that girl  
She know she's just that girl  
That girl baby, just that girl

She know she's just that girl  
She know she's just that girl  
That girl baby, just that girl

Just that picture in my mind I see  
And I can't wait for the day we meet  
Baby, we'd be so fly, baby just you and I  
I wanna give you the world 'cause you're

Just that girl, the one that's dancin' through my mind  
Just that girl, the girl that I've been tryna find

Just that girl, her style is crazy, she's a dime  
And it's almost like I can see her, she's just that girl

She know she's just that girl  
She know she's just that girl  
That girl baby, just that girl

She know she's just that girl  
She know she's just that girl  
That girl baby, just that girl

The one that's dancin' through my mind  
Just that girl, the girl that I've been tryna find  
Just that girl, her style is crazy she's a dime  
Almost like I can see her, she's just that girl

She know she's just that girl  
She know she's just that girl  
That girl baby, just that girl

She know she's just that girl  
She know she's just that girl
