

# Lazy Daze

Drew Seeley

Let's stay in bed, cause I don't wanna go to work  
I'd rather just work on you  
Turn off your head, don't worry about the million things  
you think you gotta do  
Let's hit snooze  
And take our time, take a break  
From the world, cause it can wait

Go head turn it over in your mind  
You tell me I'm your kryptonite  
But don't get mad you know I'm right

This just can't wait till tonight  
Outside it's pouring  
Let's sleep off the morning  
And wake up to heaven in the afternoon  
We don't have to fight this  
We should be selfish

Stay in and do all the things that we want to  
We can blame the rain and take no calls  
Step away from it all  
Live it up cause we ain't got tomorrow  
We got today, today, today

I know you say that sometimes I don't take  
Things as serious as I should  
Well, answer me this - if I'm such a bad influence then

How do I make you feel so good?  
Cause it's just one of those days  
To tell the world it can wait  
We'll leave the house tomorrow feeling fresh and new

Cause baby you're my kryptonite  
And I get weak at just the sight of you  
But I know what to do  
So close your eyes and count to ten

And when you open them you'll know just what I'm trying to do  
Just take my hand, cause I've got a plan  
Follow me and baby we can set the mood
