

# Leaving Tonight

Drew Seeley

Was gonna write this  
But now I'm telling you  
Because I just ran out of time  
Gotta get it out  
Too far to stop now  
And I don't care what this sounds like

When I'm with my girl I'm wishing she was you  
And you think of me when you're with him  
And if I'm right about that  
Then why are we just friends

Cause in your smile  
I find my life is worth while  
When it goes away  
It's like the end of my day

Girl I'm leaving tonight  
I just can't keep on living this life  
When you I'm with oh, you can't deny  
What your heart feels inside  
It's right, it's right  
Leave with me tonight

Girl I think I know  
What you're afraid of  
Using our friendship for love  
I can understand  
Because I'm terrified  
But that doesn't mean we shouldn't try

Never you seen you laugh at anything he says

The way you laugh when you're with me  
It's got loyalty, it's opportunity  
I'm dying from a case of bad timing

Cause in your smile  
I find my life is worth while  
When it goes away  
It's like the end of my day  
And I want you to know  
That I love you so  
In case I don't see you tomorrow

Girl I'm leaving tonight  
I just can't keep on living this life  
When you I'm with oh, you can't deny  
What your heart feels inside  
It's right, it's right  
Leave with me tonight

Won't you leave with me tonight  
Just trust in me and close your eyes  
Because I want you in my life

Girl I'm leaving tonight

I just can't keep on living this life  
When you I'm with oh, you can't deny  
What your heart feels inside  
It's right, it's right  
Leave with me tonight
