

# Rebound

Drew Seeley

How it started out with us  
On the rebound

Perfect is how it started out with us  
Finally a girl that I could trust  
With beauty, brains, knows how to laugh  
She's just perfect, and when I look into your eyes  
Felt like the luckiest man alive  
Until you girlfriend told me what I was

I was what you used to keep your mind off someone else  
And either way I lose when you put me on the shelf

So don't lead me on if you're not gonna stay around  
I don't wanna be the one if you're on the rebound, rebound  
I can't be with you no matter how good it sounds  
I don't wanna be a fool if you're on the rebound, rebound

Listen, I'm really falling hard for you  
But you're in love with two  
Can't have your cake and eat it too  
So listen, I don't want this thing to end  
But if you've got a special friend  
You keep running back to him, so understand

I'm not that guy to pretend to live a lie  
Tell me what it is you want  
If it's not me then say goodbye

So don't lead me on if you're not gonna stay around  
I don't wanna be the one if you're on the rebound, rebound  
I can't be with you no matter how good it sounds  
I don't wanna be a fool if you're on the rebound, rebound
