

# From One Hell To Another

**Driller Killer**

Down for the last time, shit made me go blind  
Messed up the fucking lot, return to zero and look what I got

A last temptation in this hallucination  
From one hell to another

Needing it like an angry dog  
A kick in the arse to clear the fog  
The will to be weird, and mad for being born  
Life itself feels like a bloody thorn
